Proposed Projects:
Below are proposed projects that may help reduce carbon and projects that might have an additional impact to the carbon count

- ① Emmaus Woodland - carbon reduction
- ② New Community Hospital - net zero carbon gain
- 60 New Energy Efficient Homes - carbon reduction
- ③ Solar Farm - carbon reduction
- ④ Potential Biodiversity Net Gain (BNG) Areas - carbon reduction
- ⑤ The Pump House Meadow Proposal - carbon reduction
- ⑥ Woodland Creation - carbon reduction
- ⑦ Blackhill and Consett Park - planting has been added in the Park at various locations to help improve biodiversity - carbon reduction

There are currently Business Energy Efficiency Project (BEEP) currently operating within the area, which will help contribute to carbon reduction.
